

eBooks on the iPad

- Download the “Follett BryteWave K-12Edition” app (FREE) - <https://itunes.apple.com/us/app/follett-enlight-k-12-edition/id692783324?ls=1&mt=8>
- Enter your username and password (ebook) just like the web-based version.
- Decide which shelf you want to access and use the following codes in the first box after the <http://> . These are available on the DPS website as well. Just the letter/number combination between the “<http://>” and “.follettshelf.com” is needed.
 - Elementary Shelf – wbb02376
 - Middle School Shelf – wbb02377
 - High School Shelf – wbb02378
 - Staff Shelf – wbb02379
- Select “Log In”
- Select the “My Library” tab on left side to checkout a new book to read. The web-based version should appear on your screen.
 - If you already have a book checked out via the web-based version you will just have to select the orange icon with arrows in a circle (Synchronize) at the top for your book to appear.
- To read a book in the app you must check it out.
- To check out a book, select the book that you want (“My Library” tab). Once will say “Open”. Select the “i” in the lower right hand corner of the book.
 - If you already know you want the title you have selected, select “Checkout”. To read in the app, select “Checkout”.
 - Once the book is checked out to you. Select the “My eReader” tab at the top.
 - Then Synchronize the app (select the orange icon with arrows in a circle).
 - To download it to your device so that it can be read anywhere select “Open Book” to the right of the book. It will give you the option to “continue reading online” or to “download title”. To read the book without a wifi connection you must download the title.
 - Once the book has downloaded or you have selected “continue reading online”, the book will open in the app.
 - Now you can use the book as you would in any other eReader device.
 - If you just want to view the book for possible selection select “Open” under the picture of the book.
 - This will take you straight the book in the app to view.
 - If you want to check out this title, follow the instructions above.
- Once you have checked out a book and synchronized, they will appear in the “My eReader” tab screen. To read the book, select “Open Book”. To read the book without a wi-fi connection, be sure that it says “Downloaded” below the book title and author.

Otherwise you will need to select “Open Book” and “download title” to read it without wi-fi.

- From the My eReader screen you can also:
 - View the due date – checkouts are 7 days long and you can only have 1 book checked out at a time.
 - Return the book early
- When the book is open there are several options on the edge of the screen. If you cannot see these options once you begin reading, tap the center of your screen and they will appear. These options are:
 - Bookmark (top left corner) – makes a “bookmark” for the page that you want to return to later
 - Information (orange lowercase *i*) – displays checkout information, table of contents, and bookmarks
 - Search (magnifying glass) – search within the book
 - Menu (3 lines top right corner) – You can return to:
 - My Library – return and select another book from the web based Follett eBook collection
 - My eCheckouts – return to the books that you have checked out
 - Logout
 - Arrows on the side and at the bottom allow you to turn the page of the book. You can also swipe across the screen. You can also type in the page number that you want to view.
 - The buttons on the left side are to add notes. Use the sticky note icon with the + sign to add a note. Select the arrow to move the note page off the screen when finished.
 - To change the size of the print (zoom in/out or adjust height/width) or to move from a one page view to a two page view, select the “AA” in the lower left hand corner. This also contains a feature that allows just the text of some books to display as well (mainly chapter books). You can also change the background color of the screen for some books.
- To read the book you can swipe across the screen or use the arrows at the bottom.
- The app has a 7 day checkout. Like the web-based version, the book will disappear after the due date.
 - If you want to return it before the due date return to the “My eReader” screen and select “Return Early”.
