The Board of Education had a tentative form of this budget prepared by the Business Office and the Board Secretary has made the same conveniently available to the public for inspection for the last 30 days prior to today's action. President Clevenger asked if any written comments had been received or if anyone wanted to present written comments. None had been received and none were presented. Open Session Continued	President Clevenger noted that the Board of Education had been in Closed Executive Session to discuss the appointment, employment, compensation, discipline, performance or dismissal of specific employees of the public body and pending and/or threatening litigations. <u>No action was taken during Closed Executive Session.</u>	Information only.

District Highlights	Decatur Public Schools students attended the Ultimate Life Summit (ULS) 7 Mindsets University Conference in Orlando, Florida. The focus of the summit was to discuss how 7 Mindsets could improve lifestyles and help others. They met other students, which allowed them to build relationships and work on their life goals/ambitions. 7 Mindsets empowered students and teachers and allowed them to network with other districts. Sarah Knuppel, Principal at Pershing Early Learning Center, noted that they were a grant-funded pre-school program for three (3) and four (4) year old students prior to entering kindergarten. They were also home to the Macon-Piatt Special Education Cooperatives Early Childhood Program; they currently have 420 students. Mrs. Knuppel thanked her families for their involvement. She currently has a waitlist of approximately 170 kids. There is no additional space and/or staff for these students. Mrs. Knuppel thanked Dr. Mike Curry and the Building and Grounds Department for their continued hard work. She mentioned upcoming events and was looking forward to a great year. To accommodate the waitlist, Pershing would need six (6) to eight (8) additional classrooms and a gym. The biggest challenge would be staff. Since many other institutions discontinued early childhood programs, the path for early childhood teachers was very narrow. She does not think she would gain much more space by utilizing the old Enterprise School. However, staff is the critical issue.	Information only.
Public Participation	President Clevenger noted that during Public Participation, the Board of Education asked for the following: • Identify oneself and be brief. • Comments should be limited to 3 minutes. • Any public comments submitted to the Board Secretary will be included in the record.	Information only.

TOPIC	DISCUSSION	ACTION
	Sam Mills, President of the Decatur Education Association (DEA), spoke to the Board and named several positives observations (Ellsworth Dansby Jr., South Shores, International Teachers) that he witnessed throughout the District. Mr. Mills noted that the DEA recognized the financial concerns that were facing the District, due to the changes in Washington, D.C., state funding and/or the loss of population in Decatur. DEA asked for administration to work with them to prioritize the resources that directly serve our students. They were always willing to discuss potential moves and to be more pro-active vs. re-active. DEA was willing to work with administration. Megan Meyrick, Parent of DPS Students, spoke to the Board and thanked the District for the summer program vouchers that were available to parents of DPS students. Her children, who are DPS students, benefited greatly from the various programs. She asked if the Board of Education could consider continuing this program for DPS students in the future.	
Board Discussion	Mr. Reynolds asked about the waiting list at Pershing Early Learning Center. He asked if the Board would consider ways to expand the pre-kindergarten program that would help with the demand; Mr. Reynolds thinks that there would be an increased population. Superintendent Clark replied that space for pre-kindergarten was a topic during the previous Strategic Planning discussions, therefore, it would be taken into consideration once the plan is revisited.	Information only.
	Vice President Wetzel would like to review and have more conversations regarding the long-standing contracts for professional services in DPS 61. He wanted to make sure tax dollars were being spent in the best way in District 61.	
	President Clevenger noted that Mr. Reynolds request highlighted the need to re-engage the committee and the process of Roadmap 2030 so that the District would know the needs of the facilities in the future. In addition to the Superintendent Search, President Clevenger asked to re-engage the Roadmap 2030 committee and process. He does not want to concentrate on one school at a time; he would rather have this done district-wide.	
	Vice President Wetzel does not think that Roadmap 2030 is a solution for buildings, but a pathway to education; the staff and curriculum effects education more so than the facilities. As we restart Roadmap 2030, the conversations need to center more around education. As we progress with those conversations and recommendations, then the District could focus on how the buildings would support those educational decisions. Roadmap 2030 is not just a “building plan;” the conversations on education should come first during this process.	
	President Clevenger noted that we need to integrate the total picture and put more emphasis on how our students were achieving.	

TOPIC	DISCUSSION	ACTION
Board Discussion Continued	Mr. Reynolds asked Vice President Wetzel were there a lot of long-term contracts in the District. Vice President Wetzel replied this would be a conversation for Dr. Mike Curry, Chief Operational Officer, and staff. He was referring to contracts for professional services with no end date; he was not saying these companies could not be considered, but we need to make sure the appropriate services were being provided with a review and an end date. Dr. Lauritzen would also like to revisit Roadmap 2030. As it relates to the Superintendent Search and the focus groups, the Board needs to be focused on students, families, teachers and staff. She asked the Board of Education to focus on listening to the community along with teachers, parents and students; she felt as if they were always the smallest percentage. There is a teacher shortage and the staff would be able to give feedback on how to solve it and the betterment of a Superintendent; she noted that the other community groups were very important, but listen more to those who work directly with our students every day. Therefore, on the Superintendent Focus Groups and Roadmap 2030, reflect on how many people were having their voices heard, not just on a survey, but in person too. Mrs. Tyus asked about the timeline for Roadmap 2030. President Clevenger replied that they were trying to start with the Superintendent Search first, then Roadmap 2030 in the fall. Mr. Reynolds asked if there were areas of Roadmap 2030 that the Board of Education could focus on at this time. Dr. Lauritzen replied that the Board of Education should be focused on all of it and once a Superintendent is hired, he or she would be given that charge. President Clevenger noted that the Board of Education needs to be in a position to work on multiple things at the same time. Mr. Hale does not want to use Roadmap 2030 as the crutch that would not allow the Board of Education to take care of today's business. For example, the District could be proactive with staff and families at Dennis and Pershing schools by communicating and problem-solving those issues; he does not want the District to miss an opportunity because we were waiting on Roadmap 2030. Those issues need to be taken seriously. Could we proactively find a way to deal with Dennis school? Vice President Wetzel replied that this needs to be done correctly, the Superintendent Search needs to be done correctly and Roadmap 2030 needs the attention it deserves. Mr. Hale wants to make sure the staff is being supported now and we need to remain aggressive with the Superintendent Search. President Clevenger noted that the financial future of the District is important and decisions would be based off of priorities and the availability of funds and resources. Vice President Wetzel thanked those for the positive public comments and his colleagues for the Board Discussion regarding issues/concerns.	Information only.

Date: September 09, 2025	Subject: Stephen Decatur Middle School HVAC Automation Upgrade
Initiated By: Aaron Peters, Maintenance Supervisor and Floyd Bolt, Director of Buildings and Grounds	Attachments: Proposal
Reviewed By: Dr. Mike Curry, Chief Operations Officer and Dr. Rochelle Clark, Superintendent	

BACKGROUND INFORMATION:

With rising energy costs and increasing building comfort control requirements, coupled with failing 14-year-old Roof Top Unit controls, ENTEC (Building controls and automation company) has quoted a controls upgrade for Stephen Decatur Middle School. The controls function intermittently, due to age, and in many cases have failed completely. In these cases, the controls have been bypassed to make them operational to maintain building comfort as best as possible. In addition to updating existing controls, CO2 controls, humidity controls, and variable speed fan controls will be added to 9 units that do not currently have these control options.

CURRENT CONSIDERATIONS:

- ENTEC submitted a quote to furnish the labor and material to install Delta Intelligent Building Technologies (DIBT) controls for (15) RTUs at a cost of \$185,130.00
- An application has been pre-approved by Ameren and an incentive in the amount of \$89,250.00 have been reserved for this project #2500616

FINANCIAL CONSIDERATIONS:

District costs associated with this project will come from Fund 60.

STAFF RECOMMENDATION:

The Administration respectfully requests that the Board of Education approve the Stephen Decatur Middle School HVAC Automation Upgrade as presented.

RE: Stephen Decatur RTU Control Upgrade

Dear Aaron,

We propose to furnish the labor and material to install Delta Intelligent Building Technologies (DIBT) controls for (15) RTUs to allow for better control and reliability. The existing factory controls are 14 years old and do not maintain consistent space temperature control in addition to experiencing increased failures. We propose furnishing the following scope of work:

(9) Constant Volume RTU's

1. Furnish and install DIBT Controllers on the existing RTU's.
2. Furnish and install Delta Electronics VFDs to allow single zone VAV control.
3. Furnish and install CO2 sensors in the return air duct.
4. Replace the existing temperature and humidity sensors with new sensors.
5. Reuse damper actuators, switches, relays, etc.

(6) Variable Air Volume RTU's

1. Furnish and install DIBT Controllers on the existing RTU's.
2. Reuse the existing VFD to provide single zone VAV control.
3. Furnish and install CO2 sensors in the return air duct.
4. Replace the existing temperature and humidity sensors with new sensors.
5. Reuse damper actuators, switches, relays, etc.

The following additional scope will be provided:

1. Furnish electrical labor as required to provide installation of controls and power wiring including all installation materials.
2. Furnish commissioning of all inputs and outputs on this project.
3. Furnish engineering, programming and system commissioning.
4. Furnish operator training.
5. Furnish a 1-yr warranty on all control components and workmanship for date of substantial completion.
6. Any controls components found to be inoperable during this project and not included in the original scope will be brought to the owner's attention for approval prior to repair.

Proposed Amount: \$185,130.00

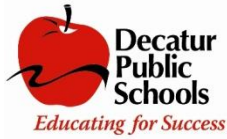

Please contact me if you have any questions or would like to discuss this proposal further.
This price is guaranteed for thirty days from the proposal date above.

Date: September 09, 2025	Subject: Boiler Piping Upgrades at Social Emotional Learning Academy (SELA)
Initiated By: Aaron Peters, Maintenance Supervisor and Floyd Bolt, Director of Buildings and Grounds	Attachments: Proposal
Reviewed By: Dr. Mike Curry, Chief Operations Officer and Dr. Rochelle Clark, Superintendent	

BACKGROUND INFORMATION:

Due to rising energy costs, maintenance staff and ENTEC (Building controls and automation company) propose to insulate and upgrade the piping system at SELA. The tunnel system below the school houses the pipes that distribute the hot water to the individual air handlers throughout the building. The current design does not allow for fine control of water temperatures based on exterior temperatures (lower outside temps require hotter water). This wastes energy and overheats the spaces above the tunnels. ENTEC will provide and install a three-way valve into the piping system and DPS staff will insulate pipe in the tunnels.

CURRENT CONSIDERATIONS:

- ENTEC submitted a quote to furnish and install a 3-way valve to allow hot water reset of the hot water loop serving the building at a cost of \$26,420.00
- DPS Maintenance staff will insulate pipes at a cost of \$12,240.88
- An application has been pre-approved by Ameren and an incentive in the amount of \$8,464.00 have been reserved for this project #2500910.

FINANCIAL CONSIDERATIONS:

District costs associated with this project will come from Fund 60.
