I like that they are making things for children.

In need of Anna.

This is cool.

It's a great class.

I really like the VR mission.

Printing process is the best!!

I think these inventions will soon become part of the future.

All of this is a great idea to do for all the kids next year, let's make this year really fun.

We should keep the love.

We should keep it.

Very creative concept.
Print 3D printing is a fun and interactive way to learn.

I think the 3D printing class would be
in school. I would really like to see this

Maker Space
Do you understand how to use these spaces and how they could be used in the future?

- **Yes**: 84.4%
- **No**: 11.1%
- **No opinion**: 4.5%

Which option best describes how you feel students will respond to these spaces next year?
