---

Programs at nine Decatur Public Schools were suspended today as members of the Decatur Federation of Teaching Assistants (DFTA) went on strike. These suspended programs affect 528 students. However, classes continued as usual for more than 8,000 students in Decatur Public Schools. We continue to welcome any Teaching Assistants back to programs that remain open.

Parents and community members can find complete information about impacted programs, as well as contract negotiations, on our website at [dps61.org](http://dps61.org).
