Reading/Writing Activities

<p>Write an opinion piece about the best way to continue learning over your longer break. Provide three reasons why your idea is the best.</p>	<p>Read a story of your choice and complete a story map including the title, main characters, setting, problem, and solution. Draw a picture of your favorite part.</p>	<p>Make the following sight words using objects around your house: give, some, next, help, and about.</p>
<p>Keep a daily journal about your extended break and what you are learning. Remember to use capitals and punctuation.</p>	<p>Write a story about a recent trip to the grocery store. Include setting, characters, a problem, and a solution</p>	<p>Read the cereal container and write 3 new things you learned and 1 thing you already knew.</p>
<p>Read any story; describe the 2 main characters, write what the problem is, write how the problem was fixed.</p>	<p>Make any type of song using these sight words: because, sad, most, neat, rough. Perform this song for someone.</p>	<p>Compare/Contrast Get any 2 items from your pantry or refrigerator and list all the ways they are the same. Then list all the ways they are different. Then tell which one is your favorite and why.</p>

Mathematics Activities

Make an addition/subtraction board game and play with someone at home.	Make a set of math fact flashcards and play a game of war with someone.	Roll a set of dice and add and subtract the two numbers and roll again.
Practice adding a 2 digit and a 1 digit number, without any regrouping or carry.	Add a 2 digit number with another 2 digit number, which requires regrouping ones to make tens or carry at ones.	Subtract Tens from each 2 Digit Number: Mrs. Young has two fish in a tank. There are 16 fish in the small tank. There are 29 fish in the large tank. How many fish are in both tanks?
Do a shape hunt around the house. Draw and label as many shapes as you can find.	Race to 100. Roll a set of dice and add the two together. Continue taking turns rolling the dice and adding to the total. The first one to 100 wins.	Use any book and count the number of words on one page. Then count the number of words on another page. Subtract the smaller number from the bigger number.

Science Activities

<p>Weather- Create a chart to track weather for a week. Be sure to include the precipitation, temperature, and cloud cover each day.</p>	<p>You are a zoologist who has discovered a new animal species. Draw a picture of your animal. What is your animal called? Where does your animal live? What does your animal eat? What else does your animal need to survive?</p>	<p>Brainstorm a list of ideas for items that are not normally recycled. How would this help the environment?</p>
<p>Fast Fact Finding--Sky Colors Research the sky's colors. Every color in the sky comes from the Sun. What colors mix to form other colors in the color spectrum?</p>	<p>Observe using your five senses: Pick one food item and ask the following...</p> <ol style="list-style-type: none">1. See-how does it look?2. Touch-how does it feel?3. Smell-how does it smell?4. Hear-how does it sound?5. Taste-how does it taste?	<p>Can you make it move? Pick an object in your home. Does it move when you...</p> <ol style="list-style-type: none">1. Blow on it with your mouth2. Blow through a straw3. Roll a ball into it4. Place it on a ramp
<p>Create a moon journal. Each night draw and describe what the moon looks like and describe how it is changing from the night before.</p>	<p>Draw a picture of a mother or father animal and it's baby. Think about how the animals are alike and how they are different. Also think about how the mother/father helps the baby stay safe and how the baby gets food. Are there any special parts of the animal's body that help to keep it safe?</p>	<p>Find three different objects in your house. Find a source of light (lamp, flashlight, phone light, etc.) and shine the light on the objects and compare how well the light shines through or not through each object.</p>

Social Studies Activities

Make a timeline of each day. What activities did you do and at what times did you do them?	Draw a map of your neighborhood or your house. Label the important information like streets or rooms.	Write letters to your principal or teacher and tell them what you are doing while you are at home.
Ask how you can help someone at home. Make a list of things you can do to help, and do those things.	Interview a family member. Ask them what school was like when they were in school. Talk about how school is different and the same for you.	Make a list of things you would like to spend money buying. Write about how you could earn the money to buy something you want.
Make a list of the nice things people do for you each day. Put a tally each time they do those things. (Examples: fix my breakfast, lunch or dinner, help me with a project or reading, help me learn something new, share with me)	Think about your first day back to school after this break. Write and/or draw a picture about what you think you will do that day.	Keep a list of nice things you do. Make a tally each time you do those things. (Examples: Say please or thank you, share with someone, do a favor for someone, let someone go first, ask for something politely, say I love you.)

Art Activities

Pretend you are a fashion designer. Create an outfit for a famous person.	Read your favorite book and create drawings to illustrate the story.	Draw a map of the inside of your house. Make sure you include details - doorways, closets, hallways, sitting area, beds, sinks etc.... Color your map and label all the areas.
Create a new logo for your school. Include a phrase that describes your school (something short and to the point) and sketch something that would represent your school and could be displayed to show your pride in learning.	Draw yourself, what is on your face? How are you feeling? What kinds of clothes are you wearing?	Using coins, leaves, other items, place under a paper and using a crayon without the wrapper, rub it over the item to see if the item shows up on the paper.
Write your name in bubble letters, decorate it with crayons or other craft materials in your home.	Make a paper plate mask and act out a story.	Draw your family, what is your family doing? Who is in your family?

Music Activities

<p>If you have access to YouTube, watch some Irish dancers on “Irish Dance World Championships 2017 - Fusion Fighters Performance.”</p>	<p>Watch a favorite movie scene with the sound turned off. Brainstorm some ideas of what kind of music you would include. What instruments would play? What would it sound like? Then turn the sound back on to see what the composer decided to do!</p> <p>Afterward, if you can: https://www.youtube.com/watch?v=ecYqgLml89c</p>	<p>With a guardian, sibling, or anyone around home, think of a fruit in your head. Try and tap/pat it out without saying what’s in your head! Can they figure it out?</p> <p>Now try swapping! Which fruits are the easiest to hear? Which are more difficult?</p>
<p>If you have access to YouTube, sing and dance to this song: Dance Dance Leprechaun Dance (a Kiboomers song).</p>	<p>Find a favorite song on the radio, TV, or youtube. Make a list of as many instruments you can hear playing in the song as you can. Briefly try and describe how each of these instruments make their sound.</p>	<p>Use a pattern and make up a steady beat.</p>
<p>Guess the Song: Hum a song and have someone in your family try to guess the song.</p>	<p>List as many instruments you can think of?</p>	<p>Listen to a song and identify the musical instruments.</p>
